

## LETTERBOX

Poly-Tek Letterboxes are manufactured using a high density lightweight core coated in a hard coat & sand textured finish. The Letterboxes are supplied with a pre-inserted post. Poly-Tek Letterboxes are durable and provide a modern rendered aesthetic.

Our prefabricated letterboxes eliminate the need for tradesmen that are required for normal 'bricked up' Letterboxes. Poly-Tek letterboxes are designed to be quickly and easily installed in a D.I.Y manner with full installation instruction provided. Once installed all that is required is paint.

All Poly-Tek letterboxes come standard with a fully lockable brushed silver mail insert which is Australia Post compliant. All letterboxes include 2 keys to ensure the security of your mail.

## LETTERBOX

The **Aruba** and the **Aruba Duplex** designs are the newest additions to the Poly-Tek Letterbox range. They have been produced with cost efficiency in mind therefore are slightly smaller than our standard range. They also feature a smaller mail insert, with lockable rear faceplate designed to be used with 'clients own' padlock. The **Aruba** is supplied unpainted (as with all our Letterboxes) and comes with a small pre-inserted post.
